# INTRODUCTION

## Welcome to Vocational Skills Australia (VSA).

It is our pleasure to present our latest information package to provide a brief overview of this beautiful country and our city Adelaide that has everything to offer.

Australia has one of the best and widely recognised education systems that is structured upon strong national policy, legal framework and stringent regulation. Australia not only offers world-class education, it also delivers globally credible qualifications and achievements.

Adelaide is the world's third most liveable city, with a vibrant atmosphere and natural beauty on its doorstep. There is so much to experience beyond the classroom, from local fresh food markets, international sporting events and world-renowned arts festivals. That's why over 40,000 students from 130 countries choose to study, live and work in Adelaide.

We are a dedicated Registered Training Organisation based in South Australia providing vocational training in Business and Financial Services for international students. Our campus is in Mawson Lakes (Technology Park <https://techpark.sa.gov.au>), just 12 km north of the Adelaide CBD.

Please do not hesitate to contact us with any concern  
We have carefully prepared this document to introduce you briefly to Australia and our city Adelaide. The annexed information will help international students to understand Australian Vocational Education Sector with VSA offering to make informed decisions regarding their future students with pathways.

# AUSTRALIA

A proactive player on the international stage, Australia is a land of sun, sand and future. From the very first fleet of convicts who arrived here in 1788 to modern day migrant, Australia has been offering everyone with opportunities to discover themselves and change the world. Australia is a cultural hotpot with liberal values and a warm democracy. One of the most sparsely populated country on the planet, Australia is also the only continent-country that is one of the most advanced economies of the eastern hemisphere. Today, Australia is one of the world's most multicultural countries, rich in Indigenous and immigrant cultures.

Australia's economy is consistently ranked among the strongest of advanced economies in the Organisation for Economic Co-operation and Development. It is the world's twelfth largest economy and a top performing nation on almost every measure of excellence, from health to wealth, from ease of doing business to educational attainment. With low unemployment, low inflation, a highly skilled workforce, and with strong links with the fastest-growing region in the world, the South-East Asia, Australia's economy is set to prosper well into the future. Australia's foreign engagement and trade policy promotes its security and long-term prosperity.

Australia is a highly developed country, with the world's twelfth-largest economy. It has a high-income economy, with the world's tenth-highest per capita income. Australia is a regional power and has the world's thirteenth-highest military expenditure.

Immigrants account for 30% of the country's population, the highest proportion among major Western nations. Having the eighth-highest Human Development Index, and the ninth-highest ranked democracy globally as of 2021, Australia ranks highly in quality of life, health, education, economic freedom, civil liberties, and political rights, with all its major cities faring exceptionally in global comparative liveability surveys.

Australia is abundant with unique experiences and awe-inspiring landscapes. There's a well-known vibrancy in its natural beauty, but don't forget to seek out our history and culture as well.

# ADELAIDE

The capital of South Australia, Adelaide, is known as Australia's events city and is alive all year round with fascinating and fun festivals and exhibitions. In addition to being home to over 400 festivals and events every year. Ranked as the fifth most liveable city in the world by the Economist Intelligence Unit for the past three years, Adelaide is home to tens of thousands of migrants who enjoy life without the high cost of living or traffic congestion of larger cities.

One in five people living in Adelaide are originally from somewhere outside Australia: making it a welcoming, multicultural community. High quality local food, a mild climate all year round, parks and beaches close at hand, and a reputation for having a relaxed lifestyle mean that Adelaide provides a perfect balance for life.

There's never a dull moment in South Australia; known as the Festival State to visitors and locals alike. Whether it's comedy, theatre production or world class musical performances, no other city hosts events like Adelaide does. Adelaide is one of Australia's most affordable cities; costing 19% less to live compared to Sydney and Melbourne, and around 7% less than Brisbane and Perth.

Adelaide is the world's third most liveable city, with a vibrant atmosphere and natural beauty on its doorstep. There is so much to experience beyond the classroom, from local fresh food markets, international sporting events and world-renowned arts festivals. That's why over 40,000 students from 130 countries choose to study, live and work in Adelaide.

A photograph of three young people, two women and one man, looking intently at a laptop screen. The woman in the center is smiling and pointing at the screen. The man on the left is looking down at the screen, and the woman on the right is also looking at the screen. They appear to be students in a classroom or workshop setting.

# Vocational Education And Training (Vet) In Australia

Australia's VET sector is based on a partnership between governments and industry. VET qualifications are provided by government institutions, called Technical and Further Education (TAFE) institutions, as well as private institutions. Australian governments (federal and state) provide funding, develop policies, and contribute to regulation and quality assurance of the sector. Industry and employer groups contribute to training policies and priorities, and in developing qualifications that deliver skills to the workforce.

Nothing is more exciting than learning from someone who shares the same passions as you do – and who's already been there and done it at the highest level. In Australia, VET teaching staff are not just industry-aware, but have actual experience in their fields of expertise – maintaining the currency of their knowledge and modifying their courses to reflect changing industry focus and needs. And that means you learn not only the theory, but also the reality of the subjects you're studying.

VET qualifications are outcome-based and focus on the occupational skills and competencies gained. The Australian Qualifications Framework (AQF) recognises prior learning or current competence in the industry. This makes credit transfer easier and offers students flexible learning pathways. Qualifications range across four levels of certificates (Certificate I, II, III and IV), as well as Diploma courses and Advanced Diploma courses.

Your VET course will broaden your skills in a specialised area that teaches you the practical experience you'll need for the workplace. It will train you to design, plan, and execute the practical and technical aspects of your field in an industry context.

In Australia, the quality of your education is guaranteed. In fact, the wellbeing of all international students, the quality of their educational experience, and the provision of up-to-date and accurate information is protected by law – under the Education Services for Overseas Students (ESOS) Act 2000. On top of this, a national VET Regulator – Australian Skills Quality Authority (ASQA) – ensures the quality of our education to more than 1.2 million students – including some 230,000 international students involved in vocational education and training.

Your Vet course will broaden your skills in a specialised area area that teaches you the practical experience you'll need for the workplace. It will train you to design, plan and execute the practical and technical aspects of your field in an industry contest

## VSA Scope of Qualifications

We are one of the growing South Australian education institute providing VET qualification to international students to equip them with strong subject knowledge, definitive career outcomes along with pathways to further education.

At VSA, our focus is on the needs and expectations of the candidate as well as the future direction he/she intends to take within their career. Our courses help student to achieve professional currency and capabilities to face the dynamic markets.

We believe that training and development requires excellence on all fronts - people, materials as well as supporting functions. We strive to provide highly skilled and knowledgeable trainers and assessors to design and deliver our courses.

We operate a fully resourced campus in Mawson Lakes (Adelaide), the capital city of the State of South Australia and completely within Australia's well-defined legal landscape, we are continuously monitored, regularly audited by the national VET regulator ASQA.

VSA currently offers following qualifications to international students.

# International Students Visa for VSA

## International Students Visa for VSA

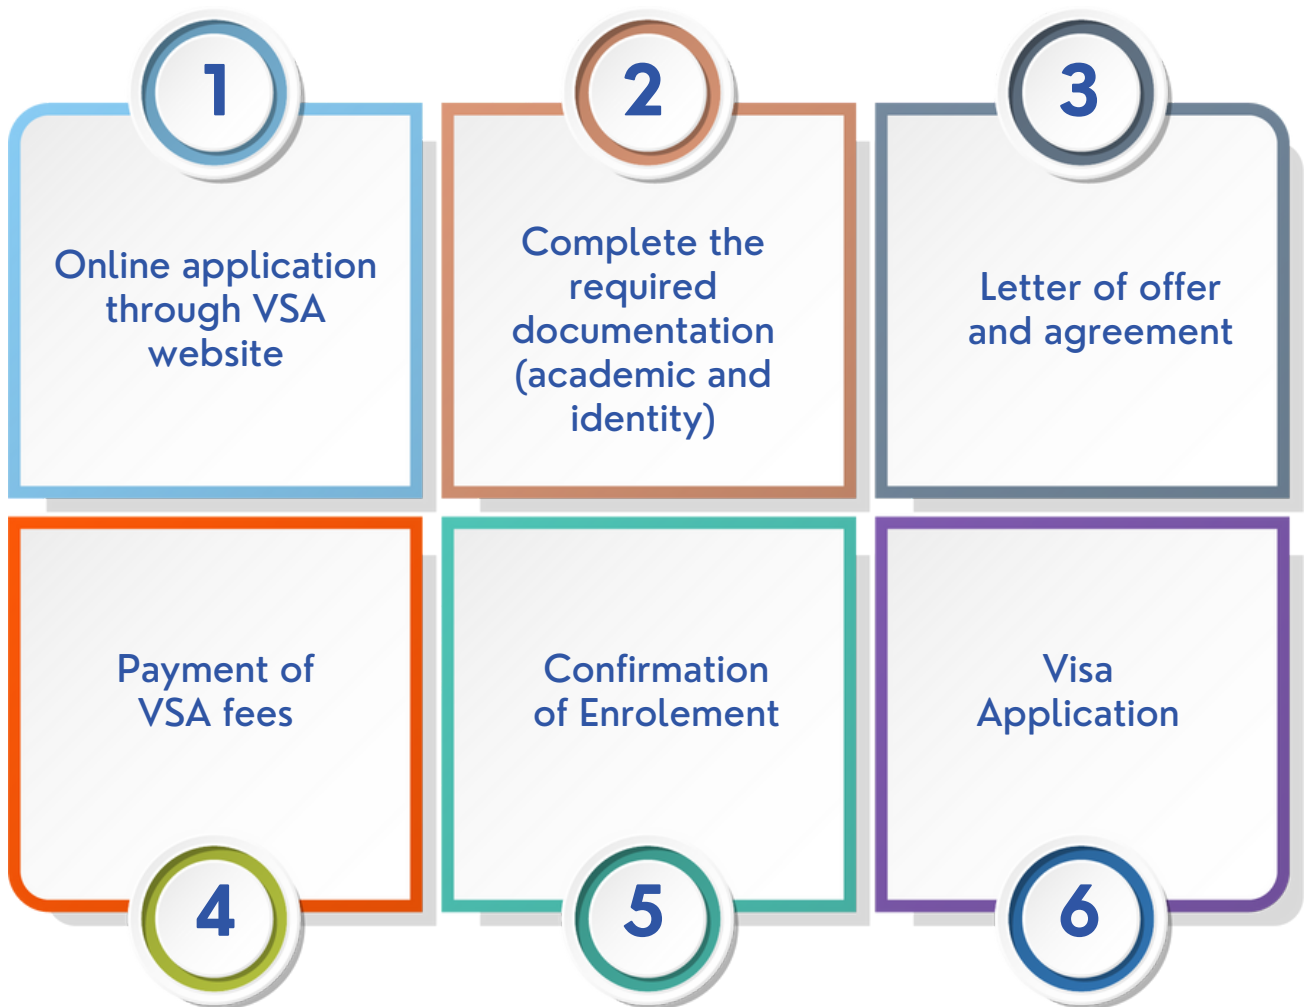

Choosing to study with Australia is an exciting step into a bright future. Before you can take this step, you need to finalise some important details. One of the most important things you'll need is a student visa (subclass 500).

To get a visa, you'll need to have successfully applied to VSA through the application form through our website [www.vsa.sa.edu.au](http://www.vsa.sa.edu.au).

The basic eligibility for admission in VSA as overseas student are;

- Recently completed year 12 studies with at least 60 % marks.
- Completed IELTS (Academic) test or similar with 6 overall  
Additionally, you also need to
- Appear in online test for Language, Literacy and Numeracy (LLN)
- GTE direct training (Optional but recommended)

# Admission & Visa Process
